# Global support and warranty services

## HEADSET SUPPORT AND WARRANTY PROCEDURES – UK

### Support / Troubleshooting

For technical assistance customers can contact Poly via:

[plantronics.com/gb/en/support/product](https://plantronics.com/gb/en/support/product)

or

[plantronics.com/gb/en/support/contact/email-support#](mailto:plantronics.com/gb/en/support/contact/email-support#)

where a response is guaranteed within 24 hours or by phone on **0800 410014**

### Warranty procedures

If your product is within the warranty period and you accidentally break it or find it not working correctly, Plantronics will ship you a replacement product via 2-day air.

To submit a warranty claim with Plantronics you need to begin by registering your headset. Visit our [Plantronics Replacement Warranty Site](#), create a New Business (User) Account and register your product. You can register more than one product at a time. After a short approval period you will be able to make a warranty claim. At any time after making your claim, you can log-in and check status or track your shipment.

Before requesting a warranty replacement we recommend that you first call our Technical Assistance Center at 0800 410014 to ensure the headset is indeed broken and it is not simply a problem with a setting on the phone or headset causing the issue.
