"Since our admission to AIM in 2014, we've delivered strong financial and operational growth, transitioning from a UK-based company into a leading European business. We would like to extend our thanks to our dedicated investors, employees, customers, partners, and advisers for their continued support in helping us reach this important milestone.

As an established business with a strong track record for high recurring revenue, strong margins, and high cash generation, we believe the move to the Main Market will best support the delivery of our long-term strategy and offers the appropriate listing for a company of our scale and ambition."
